CALL FOR PAPERS

The IEEE IFETC is an international conference focusing on printed and flexible devices, materials, systems and related physics, bringing stakeholders from all ends of the value chain together, starting from basic science and ranging to application related research and development. Take the chance and be part of this interdisciplinary event in Bologna, Italy by submitting your contribution on the following

TRACK TOPICS

Materials & Manufacturing
Energy Harvesting & Storage Devices
Imaging & Lighting Devices
Sensors, Biosensors & Actuators
Bio-interfaced, Bio-inspired & Neuromorphic Electronics
Transistors & Circuits*
Simulation & Modelling
Reliability & Lifetime
Heterogeneous & Hybrid Integration.
Emerging Applications & Products
Flexible & Printable Solutions in RFIDs and IoT
Sustainability & Energy Efficiency

EXTENDED PAPER SUBMISSION DEADLINE

14th MAY 2024

SPECIAL SESSION TOPICS

Biological & Bioinspired Smart Materials
Memristor Technology: Theory, Design & Applications
Printed Biosensors & Wearables for Healthcare Applications
Soft Robotics Meets Soft Electronics

SPECIAL SESSION SUBMISSION

30th MAY 2024

** The deadline of May 30 also applies to the Transistors & Circuits track as well*

NOTIFICATION DATE

17th JUNE 2024
